

ARCH 2019 PRIORITIZATION FOR NEW AND RENEWAL PROJECTS

Purpose: To provide a ranking order for the 2019 competition

A. ARCH will use the ranking order for the 2019 competition:

- 1. HMIS and coordinated entry system**
- 2. First time renewals**
- 3. Renewal PSH projects**
- 4. Reallocation of PH grants to RRH**
- 5. New projects for DV**
- 6. New RRH bonus projects**

B. Rationale:

HMIS and CES are ranked first since they are required projects by HUD and loss of funding will lower ARCH's application score. To protect current funding levels, the renewable projects are to be placed higher in the ranking, IF the project is meeting expectations. In order to further protect current funding levels, projects competing for reallocation of funds will rank higher than new PH bonuses.

C. Scoring will be completed using the approved scoring rubrics.
